

Soldier Summit Estates Fire Pit Inspection Form

(in compliance with Utah County Ordinance chapters 9-6-6, 9-6-9)

Inspection:

- Maintain a space of thirty (30) feet between fire pit and combustible materials and vegetation.
- Steel, concrete, or masonry ring should be around the sides of the fire pit. (not to exceed 3ft diameter)
- Fire pit should be at least fifteen (15) inches deep.
- A screen or spark arrestor, with openings no greater than ¼ inch, should be over and completely cover the top of the fire pit.
- Running water available from a hose that is attached to a working water spigot that is connected to the Soldier Summit Estates pressurized water supply and able reach the fire pit must be immediately available on site for fire suppression. In addition to the requirement that the hose be able to reach all the way to the fire pit, the available hose must be within thirty (30) feet of the fire pit until the fire pit is cold to the touch.
- At least one appropriately sized shovel and one large bucket (at least 3.5 gallons) must be dedicated and immediately available on site for fire suppression.
- Prior to ever having a fire in a fire pit on any property within the subdivision, the fire pit must (1) be approved by the county Fire Marshall, and (2) pass an inspection by the HOA Board or designated agent. The inspection will ensure the fire pit complies with all the above requirements for fire pits listed above. The inspection will have to be arranged by the property owner and the property owner must be present to invite and accompany the Safety, Security, and Compliance Director and other Board Member onto their property. Once the fire pit meets all requirements then documentation of compliance and photo of the fire pit will be maintained in the HOA records. Any changes to a fire pit after passing inspection will require a new inspection to occur.

➡ Please select the permit type used for Fire Marshall approval:

Access Permit

Minor Campground Permit

Building Permit

Guidelines:

- One person 18 years of age or older must always attend the fire.
- Campfire must be completely extinguished and cold to the touch when not attended.
- Do not maintain a fire during windy conditions.
- All outdoor fires within the subdivision, including in outdoor fire pits, may only occur during times and seasons allowed by the US Forest Service. Any time there are burn restrictions by the US Forest Service in the Uintah National Forest Service District, those same restrictions apply to fires within the subdivision.
- No garbage incineration or burning shall be permitted on any lot except for purposes of cooking or heating a structure located on a lot.
